# What is Linux?
Linux is the best operating system.
# 3 Reasons to use Linux:
* Reason 1 : You have control over the entire OS.
* Reason 2 : Open Source OS
* Reason 3 : Stability and Security
# Other operating systems
* Microsoft Windows is a group of several proprietary graphical operating system families, all of which are developed and marketed by Microsoft.
* macOS is a series of proprietary graphical operating systems developed and marketed by Apple Inc.
* FreeBSD is a free and open-source Unix-like operating system descended from the Berkeley Software Distribution (BSD), which was based on Research Unix.
* RISC OS is a computer operating system originally designed by Acorn Computers Ltd in Cambridge, England.
